Photo guide
for your portrait

BEFORE YOU ORDER

A good photo makes a good drawing.

Your portrait is drawn line by line in real ink. The clearer your photo, the clearer the face in the drawing.

Soft daylight. Near a window or in shade.

Face fills the photo. Head and shoulders.

Eyes open and visible. Nothing covering them.

Plain background, natural colours, no filters.

Avoid this

Blurred or dark photos. They draw as scribbles.

Harsh sun or light behind. Faces turn black.

Tiny faces in wide shots.

Screenshots, forwards or photos of prints.

Sunglasses, caps or hair over the eyes.
